

Jacquard Systems

For the second year in a row, actual users ranked us first in the Datapro Survey for shared logic word processing systems. This means a lot to us, but more importantly, it can mean a lot to you.

Our AM Jacquard 100 won because of qualities such as ease of operation, functions, features, applications, service and customer support —

all vitally important in the selection of word processing equipment. No wonder hands-on users rated us number one, hands down.

Although the award was for our shared logic system, the same winning qualities are built into AM Jacquard's full line of word processing equipment—including our 425 stand-alone word processor, our 225 power typing station, our 324 mag card reader and our 325 laser-based OCR reader.

Another AM Jacquard benefit is stability. We're a division of AM International, an \$800 million, multinational, Fortune 500 corporation. So you can have confidence that, whether you buy or lease, we'll be around if you need us.

Join the winners. Call or write us for details. AM Jacquard Systems—the Informationists, Dept. 777, 3340 Ocean Park Blvd., Santa Monica, CA 90405. (213) 450-1242.

LET'S TALK ABOUT WINNERS.
